

Data Sheet

PS 22 N Rolls with paper backing for Wood

Applications

Wood	●
Metals	
Paint	
Varnish	
Filler	
Plastic	
Steel	

Properties

Bonding agent	Resin
Grain	Aluminium oxide
Coating	Semi-open
Backing	E-paper

Klingspor abrasive roll PS 22 N – the universal abrasive paper for many types of material

Suitable for universal use, the abrasive roll PS 22 N by Klingspor delivers superior **economy** and is used on almost any kind of material. Highly versatile, the paper excels equally when used for the rough and the finish sanding of a workpiece. The **red paper** and the semi-open coating of the aluminium oxide grain provide for effective and uniform stock removal.

With a synthetic resin bond on E-paper for workshop and construction site materials

The use of synthetic resin for binding the grain to the E-paper allows for exceptional versatility and a wide variety of sanding processes. This abrasive is ideal for use on a multitude of different materials including

- **wood**,
- all common metals,
- paint, varnish and filler,
- plastic and
- steel.

Offering an exceptionally wide range of applications, the abrasive **red roll** PS 22 N is the perfect complement to hand held machine such as orbital sanders. It always delivers first-rate performance during the processing of workpieces - whether it is used with a sanding block or for hand sanding applications. Its synthetic resin bond on E-paper makes this abrasive robust and durable.

This universal product is used primarily in joinery shops and also recommended for all common sanding tasks required at the construction site. The **red paper** and semi-open grit coating guarantee effective performance during rough sanding and offer an equally good choice for fine sanding applications including finishing.

For a host of mobile and stationary work environments

The abrasive roll PS 22 N adapts perfectly to the specific requirements of every use scenario. No matter if the work is done by hand or carried out with the help of a sander.
