

MOTOR STARTER PRO

Technical Data Sheet

Product name: Motor Starter Pro
Sales code: 32723

Creation date: 8/2016

Version: I

1: General description

Professional grade engine starting fluid.

A balanced formulation combining active, volatile solvents and upper cylinder lubricant, each designed to play a vital part in starting engines. The ingredients are carefully blended to ensure the correct type of initial starting in the combustion chamber and to promote immediate combustion.

2: Features

- High volatility provides the necessary fuel vapours to obtain a combustible air/fuel mixture, even at low temperatures and high humidity.
- Ensures fast, economical starting of all diesel and gasoline engines.
- Reduces starter motor and spark plug wear.
- Saves battery strain and engine wear during cold start.
- Saves time and money.
- An essential tool, particularly in winter, after long periods of standstill and under humid climatic conditions.
- Aerosols use propane propellant to maintain high pressure to the very last fluid in the can.
- Equipped with the 360° (upside - down) spray valve and extension tube for added convenience.

3: Applications

- Cars
- Trucks
- Busses
- Tractors
- Motorbikes and motorcycles
- Chain saws
- Boats (in-board and out board)
- Go-carts
- Stationary engines
- Compressors
- Diesel, gasoline and kerosene engines

4: Directions

- Spray briefly into air intake or filter, giving the product some time to evaporate.
- Accelerate slightly during starting.
- Repeat if necessary.
- The use of choke (for gasoline engines) and glow plugs (for diesel engines) is not necessary.
- Use only until engine is started. Do not use in confined areas.
- Always follow the recommendations in the instruction manual of the engine manufacturer.
- A safety data sheet (MSDS) according to EC Regulation N° 1907/2006 Art.31 and amendments is available for all CRC products.

5: Typical product data (without propellant)

- Appearance : colourless liquid
- Odour : typical
- Specific gravity @ 20°C : 0,61
- Flash point (closed cup) : < 0°C
- Explosion limits : 1-45%

6: Packaging

Aerosol

12x500 ML

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.
